

gitignore

This plugin enables you the use of gitignore.io from the command line. You need an active internet connection.

To use it, add `gitignore` to the `plugins` array in your `zshrc` file:

```
plugins=(... gitignore)
```

Plugin commands

- `gi list`: List all the currently supported gitignore.io templates.
- `gi [TEMPLATENAME]`: Show git-ignore output on the command line, e.g. `gi java` to exclude class and package files.
- `gi [TEMPLATENAME] >> .gitignore`: Appending programming language settings to your projects `.gitignore`.
