

with react-hook-form

This example shows how to integrate react-hook-form in Next.js

Form handling doesn't have to be painful. React Hook Form will help you write less code while achieving better performance. For more information, see [react-hook-form](#)

Deploy your own

Deploy the example using [Vercel](#) or preview live with [StackBlitz](#)

How to use

Execute `create-next-app` with [npm](#) or [Yarn](#) to bootstrap the example:

```
npx create-next-app --example with-react-hook-form with-react-hook-form-app
# or
yarn create next-app --example with-react-hook-form with-react-hook-form-app
# or
pnpm create next-app -- --example with-react-hook-form with-react-hook-form-app
```

Deploy it to the cloud with [Vercel](#) ([Documentation](#)).
