

zh-CN

label 中使用 `<Typography.Text ellipsis>` 时应该显示 ...。

en-US

Use `<Typography.Text ellipsis>` in label should show

```
import { Form, Input, Typography } from 'antd';

const Demo = () => (
  <Form name="label-ellipsis" labelCol={{ span: 8 }} wrapperCol={{ span: 16 }}>
    <Form.Item
      label={
        <Typography.Text ellipsis>
          longtextlongtextlongtextlongtextlongtextlongtextlongtext
        </Typography.Text>
      }
      name="username"
    >
      <Input />
    </Form.Item>

    <Form.Item
      label={
        <Typography.Text ellipsis>
          longtext longtext longtext longtext longtext longtext longtext
        </Typography.Text>
      }
      name="password"
    >
      <Input.Password />
    </Form.Item>
  </Form>
);

export default () => <Demo />;
```
