

pylint

This plugin adds aliases and autocompletion for Pylint, the Python code style checking tool.

To use it, add `pylint` to the `plugins` array in your `zshrc` file:

```
plugins=(... pylint)
```

Aliases

Alias	Command	Description
pylint-quick	<code>pylint --reports=</code> <code>no</code>	Displays a set of reports each one focusing on a particular aspect of the project, default set <code>no</code> for multiple reports
