

zh-CN

在不同大小的屏幕下，应该有不同的表现。

en-US

Under different screen sizes, there should be different performance

```
import { PageHeader, Tabs, Button, Statistic, Descriptions } from 'antd';

const { TabPane } = Tabs;

const renderContent = (column = 2) => (
  <Descriptions size="small" column={column}>
    <Descriptions.Item label="Created">Lili Qu</Descriptions.Item>
    <Descriptions.Item label="Association">
      <a>421421</a>
    </Descriptions.Item>
    <Descriptions.Item label="Creation Time">2017-01-10</Descriptions.Item>
    <Descriptions.Item label="Effective Time">2017-10-10</Descriptions.Item>
    <Descriptions.Item label="Remarks">
      Gonghu Road, Xihu District, Hangzhou, Zhejiang, China
    </Descriptions.Item>
  </Descriptions>
);
