

zh-CN

通过设置 `picker` 属性, 指定范围选择器类型。

en-US

Set range picker type by `picker` prop.

```
import { DatePicker, Space } from 'antd';

const { RangePicker } = DatePicker;

export default () => (
  <Space direction="vertical" size={12}>
    <RangePicker />
    <RangePicker showTime />
    <RangePicker picker="week" />
    <RangePicker picker="month" />
    <RangePicker picker="quarter" />
    <RangePicker picker="year" />
  </Space>
);
```
