

## zh-CN

通过设定 `strokeLinecap="square|round"` 可以调整进度条边缘的形状。

## en-US

By setting `strokeLinecap="square"` , you can change the linecaps from round to square.

```
import { Progress } from 'antd';

export default () => (
  <>
    <Progress strokeLinecap="square" percent={75} />
    <Progress strokeLinecap="square" type="circle" percent={75} />
    <Progress strokeLinecap="square" type="dashboard" percent={75} />
  </>
);
```
