

## Source

To get this font to work with MATLAB, you have to load the TTFs into the MATLAB JRE font directory as described in this link at Mathworks.

## Summary

To use this font with MATLAB for Windows 10 64-bit: 1. Load the font TTF files into: `MATLAB\<ver>\sys\java\jre\win64\jre\lib\fonts` 1. Restart MATLAB 1. Change the font in **Preferences** -> **Fonts** as you wish

## Confirmed Case

This was confirmed working with Windows 10, MATLAB2020a 64-bit on with Fira Code v5.2.
