

zh-CN

`format` 属性指定格式。

en-US

You can set a custom text by setting the `format` prop.

```
import { Progress } from 'antd';

export default () => (
  <>
    <Progress type="circle" percent={75} format={percent => `${percent} Days`} />
    <Progress type="circle" percent={100} format={() => 'Done'} />
  </>
);
```
