Add a Grafana library panel to a dashboard

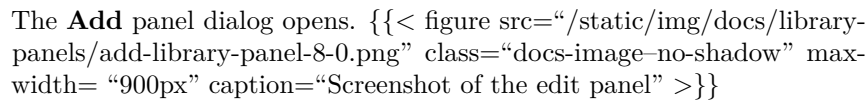

Add a Grafana library panel to a dashboard when you want to provide visualizations to other dashboard users.

Before you begin

- [Create a library panel]({{< relref "../library-panels/create-library-panel.md" >}}).

To add a library panel to a dashboard:

1. Hover over the **+** option on the left menu, then select **Create** from the drop-down options.

The **Add** panel dialog opens. The screenshot shows a dialog box titled "Add panel" with a search bar and a list of panels. The list includes "Grafana" and "Grafana" with a "Grafana" icon. The "Grafana" panel is selected.

2. Click the **Add a panel from the panel library** option.

You will see a list of your library panels.

3. Filter the list or search to find the panel you want to add.
4. Click a panel to add it to the dashboard.
