

gatsby-starter-default

The default Gatsby starter.

For an overview of the project structure please refer to the [Gatsby documentation - Building with Components](#).

Install

Make sure that you have the Gatsby CLI program installed:

```
npm install --global gatsby-cli
```

And run from your CLI:

```
gatsby new gatsby-example-site
```

Then you can run it by:

```
cd gatsby-example-site  
gatsby develop
```

Deploy

Deploy to Netlify
