

zh-CN

在系统概览页面常常和栅格进行配合。

en-US

Cards usually cooperate with grid column layout in overview page.

```
import { Card, Col, Row } from 'antd';

export default () => (
  <div className="site-card-wrapper">
    <Row gutter={16}>
      <Col span={8}>
        <Card title="Card title" bordered={false}>
          Card content
        </Card>
      </Col>
      <Col span={8}>
        <Card title="Card title" bordered={false}>
          Card content
        </Card>
      </Col>
      <Col span={8}>
        <Card title="Card title" bordered={false}>
          Card content
        </Card>
      </Col>
    </Row>
  </div>
);
```
