

Home > puppeteer > Page > setOfflineMode

Page.setOfflineMode() method

Signature:

```
setOfflineMode(enabled: boolean): Promise<void>;
```

Parameters

Parameter	Type	Description
enabled	boolean	When true, enables offline mode for the page.

Returns:

Promise<void>

Remarks

NOTE: while this method sets the network connection to offline, it does not change the parameters used in [page.emulateNetworkConditions(networkConditions)] (#pageemulatenetworkconditionsnetworkconditions)
