

# ks0108 LCD Controller Driver Documentation

**License:** GPLv2  
**Author & Maintainer:** Miguel Ojeda <[ojeda@kernel.org](mailto:ojeda@kernel.org)>  
**Date:** 2006-10-27

## 1. Driver Information

This driver supports the ks0108 LCD controller.

## 2. Device Information

**Manufacturer:** Samsung  
**Device Name:** KS0108 LCD Controller  
**Device Code:** ks0108  
**Webpage:** •  
**Device Webpage:** •  
**Type:** LCD Controller (Liquid Crystal Display Controller)  
**Width:** 64  
**Height:** 64  
**Colors:** 2 (B/N)  
**Pages:** 8  
**Addresses:** 64 each page  
**Data size:** 1 byte each address  
**Memory size:**  $8 * 64 * 1 = 512$  bytes

## 3. Wiring

The driver supports data parallel port wiring.

If you aren't building LCD related hardware, you should check your LCD specific wiring information in the same folder.

For example, check Documentation/admin-guide/auxdisplay/cfag12864b.rst
