Add a prefix inside input.

```
import { InputNumber } from 'antd';
import { InfoCircleOutlined, SmileOutlined, UserOutlined } from '@ant-design/icons';

export default () => (
  <>
    <InputNumber prefix="¥" style={{ width: '100%' }} />
    <br />
    <br />
    <InputNumber addonBefore=<UserOutlined /> prefix="¥" style={{ width: '100%'
  }} />
    <br />
    <br />
    <InputNumber prefix="¥" disabled style={{ width: '100%' }} />
  </>
);
