

zh-CN

警告类型的结果。

en-US

The result of the warning.

```
import { Result, Button } from 'antd';

export default () => (
  <Result
    status="warning"
    title="There are some problems with your operation."
    extra={
      <Button type="primary" key="console">
        Go Console
      </Button>
    }
  />
);
```
