Unlink a Grafana library panel

Unlink a library panel when you want to make a change to the panel and not affect other instances of the library panel.

Before you begin

- Identify the panel you want to unlink.

To unlink a library panel from a dashboard:

1. Hover over **Dashboard** on the left menu, and then click **Library panels**.
2. Select a library panel that is being used in different dashboards.
3. Select the panel you want to unlink.
4. Click the title of the panel and then click **Edit**. The panel opens in edit mode.
5. Click the **Unlink** option on the top right corner of the page.
