Dashboard Permissions API

This API can be used to update/get the permissions for a dashboard.

Permissions with `dashboardId=-1` are the default permissions for users with the Viewer and Editor roles.

Permissions can be set for a user, a team or a role (Viewer or Editor). Permissions cannot be set for Admins - they always have access to everything.

The permission levels for the permission field:

- 1 = View
- 2 = Edit
- 4 = Admin

Get permissions for a dashboard

```
GET /api/dashboards/id/:dashboardId/permissions
```

Gets all existing permissions for the dashboard with the given `dashboardId` .

Example request:

```
GET /api/dashboards/id/1/permissions HTTP/1.1
Accept: application/json
Content-Type: application/json
Authorization: Bearer eyJrIjoiT0tTcG1pU1Y2RnVKZTFVaDFsNFZXdE9ZWmNrMkZYbk
```

Example Response

```
HTTP/1.1 200 OK
Content-Type: application/json; charset=UTF-8
Content-Length: 551
