

mongocli plugin

The plugin adds several aliases for common [mongocli](#) commands.

To use it, add `mongocli` to the plugins array of your zshrc file:

```
plugins=(... mongocli)
```

Aliases

Alias	Command	Description
ma	mongocli atlas	Shortcut for mongocli Atlas commands.
mcm	mongocli cloud-manager	Shortcut for mongocli Cloud Manager commands.
mom	mongocli ops-manager	Shortcut for mongocli Cloud Manager commands.
miam	mongocli iam	Shortcut for mongocli IAM commands.
