

Vundle plugin

This plugin adds functions to control vundle plug-in manager for vim.

To use it, add `vundle` to the `plugins` array in your `zshrc` file:

```
plugins=(... vundle)
```

Functions

Function	Usage	Description
<code>vundle-init</code>	<code>vundle-init</code>	Install vundle by cloning git repository into <code>~/vim</code> folder
<code>vundle</code>	<code>vundle</code>	Install plugins set in <code>.vimrc</code> (equals <code>:PluginInstall</code>)
<code>vundle-update</code>	<code>vundle-update</code>	Update plugins set in <code>.vimrc</code> (equals <code>:PluginInstall!</code>)
<code>vundle-clean</code>	<code>vundle-clean</code>	Delete plugins that have been removed from <code>.vimrc</code> (equals <code>:PluginClean!</code>)
