

## DVB munmap()

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\userspace-api\media\dvb\linux-master) (Documentation) (userspace-api) (media) (dvb) dmx-munmap.rst, line 2)

Unknown directive type "c:namespace".

```
.. c:namespace:: DTV.dmx
```

## Name

dmx-munmap - Unmap device memory

## Warning

This API is still experimental.

## Synopsis

```
#include <unistd.h>
#include <sys/mman.h>
```

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\userspace-api\media\dvb\ (linux-master) (Documentation) (userspace-api) (media) (dvb) dmx-munmap.rst, line 25)

Unknown directive type "c:function".

```
.. c:function:: int munmap( void *start, size_t length )
```

## Arguments

start

Address of the mapped buffer as returned by the `:c:func:`mmap()`` function.

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\userspace-api\media\dvb\linux-master)(Documentation)(userspace-api)(media)(dvb)dmx-munmap.rst, line 31); [backlink](#)

Unknown interpreted text role "c:func".

length

Length of the mapped buffer. This must be the same value as given to `func::mmap()`.

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\userspace-api\media\dvb\linux-master) (Documentation) (userspace-api) (media) (dvb) dmx-munmap.rst, line 35); [backlink](#)

Unknown interpreted text role "c:func".

## Description

Unmaps a previously with the `:cfunc:`mmap()`` function mapped buffer and frees it, if possible.

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\userspace-api\media\dvb\linux-master) (Documentation) (userspace-api) (media) (dvb) dmx-munmap.rst, line 41); [backlink](#)

Unknown interpreted text role "c:func".

## Return Value

On success `c:func:munmap()` returns 0, on failure -1 and the `errno` variable is set appropriately:

**System Message: ERROR/3 (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\userspace-api\media\dvb\linux-master) (Documentation) (userspace-api) (media) (dvb) dmx-munmap.rst, line 47); [backlink](#)**

Unknown interpreted text role "c:func".

EINVAL

The `start` or `length` is incorrect, or no buffers have been mapped yet.
