

## zh-CN

倒计时组件。

## en-US

Countdown component.

```
import { Statistic, Row, Col } from 'antd';

const { Countdown } = Statistic;
const deadline = Date.now() + 1000 * 60 * 60 * 24 * 2 + 1000 * 30; // Moment is also OK

function onFinish() {
  console.log('finished!');
}

function onChange(val) {
  if (4.95 * 1000 < val && val < 5 * 1000) {
    console.log('changed!');
  }
}

export default () => (
  <Row gutter={16}>
    <Col span={12}>
      <Countdown title="Countdown" value={deadline} onFinish={onFinish} />
    </Col>
    <Col span={12}>
      <Countdown title="Million Seconds" value={deadline} format="HH:mm:ss:SSS" />
    </Col>
    <Col span={24} style={{ marginTop: 32 }}>
      <Countdown title="Day Level" value={deadline} format="D 天 H 时 m 分 s 秒" />
    </Col>
    <Col span={12}>
      <Countdown title="Countdown" value={Date.now() + 10 * 1000} onChange={
onChange} />
    </Col>
  </Row>
);
```
