

Google AMP Story

This example shows how to create an AMP page with `amp-story` using Next.js and the AMP feature.

Deploy your own

Deploy the example using [Vercel](#):

How to use

Execute `create-next-app` with [npm](#) or [Yarn](#) to bootstrap the example:

```
npx create-next-app --example amp-story amp-story-app
# or
yarn create next-app --example amp-story amp-story-app
# or
pnpm create next-app -- --example amp-story amp-story-app
```

Deploy it to the cloud with [Vercel](#) ([Documentation](#)).
