

With Firebase Cloud Messaging example

To demo how to implement firebase cloud messaging to send web push notification in next.js.

How to use

Execute `create-next-app` with npm or Yarn to bootstrap the example:

```
npx create-next-app --example with-firebase-cloud-messaging with-firebase-cloud-messaging-app
# or
yarn create next-app --example with-firebase-cloud-messaging with-firebase-cloud-messaging-app
# or
pnpm create next-app -- --example with-firebase-cloud-messaging with-firebase-cloud-messaging-app
```

Set your send id

set your `messagingSenderId` in `public/firebase-messaging-sw.js` and `utils/webPush.js`

Deploy it to the cloud with Vercel ([Documentation](#)).
