

# validate-modules

Analyze modules for common issues in code and documentation.

See `:ref:testing_validate-modules` for more information.

**System Message: ERROR/3** (D:\onboarding-resources\sample-onboarding-resources\ansible-devel\docs\docsite\rst\dev\_guide\testing\sanity\ (ansible-devel) (docs) (docsite) (rst) (dev\_guide) (testing) (sanity) validate-modules.rst, line 6); *backlink*
