

Security Policy

Supported Versions

See our website for versions of Bitcoin Core that are currently supported with security updates:

<https://bitcoincore.org/en/lifecycle/#schedule>

Reporting a Vulnerability

To report security issues send an email to security@bitcoincore.org (not for support).

The following keys may be used to communicate sensitive information to developers:

Name	Fingerprint
Wladimir van der Laan	71A3 B167 3540 5025 D447 E8F2 7481 0B01 2346 C9A6
Pieter Wuille	133E AC17 9436 F14A 5CF1 B794 860F EB80 4E66 9320
Michael Ford	E777 299F C265 DD04 7930 70EB 944D 35F9 AC3D B76A

You can import a key by running the following command with that individual's fingerprint: `gpg --keyserver hhttps://keys.openpgp.org --recv-keys "<fingerprint>"` Ensure that you put quotes around fingerprints containing spaces.
