

## zh-CN

一种支持封面、头像、标题和描述信息的卡片。

## en-US

A Card that supports `cover`, `avatar`, `title` and `description`.

```
import { Card, Avatar } from 'antd';
import { EditOutlined, EllipsisOutlined, SettingOutlined } from '@ant-design/icons';

const { Meta } = Card;

export default () => (
  <Card
    style={{ width: 300 }}
    cover={
      
    }
    actions={[
      <SettingOutlined key="setting" />,
      <EditOutlined key="edit" />,
      <EllipsisOutlined key="ellipsis" />,
    ]}
  >
    <Meta
      avatar={<Avatar src="https://joeschmoe.io/api/v1/random" />}
      title="Card title"
      description="This is the description"
    />
  </Card>
);
```
