

## zh-CN

通过前缀和后缀添加单位。

## en-US

Add unit through `prefix` and `suffix` .

```
import { Statistic, Row, Col } from 'antd';
import { LikeOutlined } from '@ant-design/icons';

export default () => (
  <Row gutter={16}>
    <Col span={12}>
      <Statistic title="Feedback" value={1128} prefix={<LikeOutlined />} />
    </Col>
    <Col span={12}>
      <Statistic title="Unmerged" value={93} suffix="/ 100" />
    </Col>
  </Row>
);
```
