

zh-CN

可以设置不同的预览图片。

en-US

You can set different preview image.

```
import React from 'react';
import { Image } from 'antd';

function ImageDemo() {
  return (
    <Image
      width={200}

      src="https://zos.alipayobjects.com/rmsportal/jkjgkEfvpUPVyRjUImniVslZfWPnJuuZ.png?x-oss-process=image/blur,r_50,s_50/quality,q_1/resize,m_mfit,h_200,w_200"
      preview={{
        src:
'https://zos.alipayobjects.com/rmsportal/jkjgkEfvpUPVyRjUImniVslZfWPnJuuZ.png',
      }}
    />
  );
}

export default () => <ImageDemo />;
```
