

Changelog

2.0.0

Breaking changes

- Removed compatibility code for before Meteor v1

1.3.2 - 2020-09-30

Breaking changes

- N/A

Changes

- Supports `setRedirectUrlWhenLoginStyleIsPopup` option in the settings (`public.packages.oauth.setRedirectUrlWhenLoginStyleIsPopup`) to use `redirectUrl` also in the `popup` loginStyle.

1.3.1 - 2020-09-29

Breaking changes

- N/A

Changes

- Supports `disableCheckRedirectUrlOrigin` option in the settings (`packages.oauth.disableCheckRedirectUrlOrigin`) to avoid calling `OAuth._checkRedirectUrlOrigin` , this is important to authenticate using different domains in the same server.
