

An unreachable label was used.

Erroneous code example:

```
'a: loop {  
  || {  
    loop { break 'a } // error: use of unreachable label `a`  
  };  
}
```

Ensure that the label is within scope. Labels are not reachable through functions, closures, async blocks or modules. Example:

```
'a: loop {  
  break 'a; // ok!  
}
```
