自定义 label & wrapper 样式

en-US

Customize label & wrapper style

```
import { Descriptions, Divider, Switch, Radio } from 'antd';

const labelStyle: React.CSSProperties = { background: 'red' };
const contentStyle: React.CSSProperties = { background: 'green' };

type LayoutType = 'horizontal' | 'vertical' | undefined;

const Demo = () => {
  const [border, setBorder] = React.useState(true);
  const [layout, setLayout] = React.useState('horizontal' as LayoutType);

  return (
    <>
      <Switch
        checkedChildren="Border"
        unCheckedChildren="No Border"
        checked={border}
        onChange={e => setBorder(e)}
      />
      <Divider />
      <Radio.Group onChange={e => setLayout(e.target.value)} value={layout}>
        <Radio value="horizontal">horizontal</Radio>
        <Radio value="vertical">vertical</Radio>
      </Radio.Group>
      <Divider />
      <Descriptions title="User Info" bordered={border} layout={layout}>
        <Descriptions.Item label="Product" labelStyle={labelStyle} contentStyle=
{contentStyle}>
          Cloud Database
        </Descriptions.Item>
        <Descriptions.Item label="Billing Mode">Prepaid</Descriptions.Item>
        <Descriptions.Item label="Automatic Renewal">YES</Descriptions.Item>
      </Descriptions>
      <Divider />
      <Descriptions
        title="Root style"
        labelStyle={labelStyle}
        contentStyle={contentStyle}
        bordered={border}
        layout={layout}
      >
        <Descriptions.Item label="Product">Cloud Database</Descriptions.Item>
        <Descriptions.Item label="Billing Mode">Prepaid</Descriptions.Item>
      </>
    </>
  );
};
```

```
    <Descriptions.Item
      label="Automatic Renewal"
      labelStyle={{ color: 'orange' }}
      contentStyle={{ color: 'blue' }}
    >
      YES
    </Descriptions.Item>
  </Descriptions>
</>
);
};

export default () => <Demo />;
```
