

ESLint Example

This example shows a Next.js application using the built-in ESLint setup with the `next` shareable configuration enabled in `.eslintrc`.

Learn more about the integrated ESLint configuration [in the docs](#).

Deploy your own

Deploy the example using [Vercel](#) or preview live with [StackBlitz](#)

How to use

Execute [create-next-app](#) with [npm](#) or [Yarn](#) to bootstrap the example:

```
npx create-next-app --example with-eslint with-eslint-app
# or
yarn create next-app --example with-eslint with-eslint-app
# or
pnpm create next-app -- --example with-eslint with-eslint-app
```

Deploy it to the cloud with [Vercel](#) ([Documentation](#)).
