FastAPI has an amazing community that welcomes people from all backgrounds.

Hey! 🙋

This is me:

I'm the creator and maintainer of **FastAPI**. You can read more about that in [Help FastAPI - Get Help - Connect with the author](#).{internal-link target=\_blank}.

...But here I want to show you the community.

---

**FastAPI** receives a lot of support from the community. And I want to highlight their contributions.

These are the people that:

- [Help others with issues \(questions\) in GitHub](#).{internal-link target=\_blank}.
- [Create Pull Requests](#).{internal-link target=\_blank}.
- Review Pull Requests, [especially important for translations](#).{internal-link target=\_blank}.

A round of applause to them. 🙌👏

## Top Reviewers

These users are the **Top Reviewers**. 🧑‍💻

### Reviews for Translations

I only speak a few languages (and not very well 😊). So, the reviewers are the ones that have the [power to approve translations](#){.internal-link target=\_blank} of the documentation. Without them, there wouldn't be documentation in several other languages.

---

The **Top Reviewers** 🧑‍💻 have reviewed the most Pull Requests from others, ensuring the quality of the code, documentation, and especially, the **translations**.

## About the data - technical details

The main intention of this page is to highlight the effort of the community to help others.

Especially including efforts that are normally less visible, and in many cases more arduous, like helping others with issues and reviewing Pull Requests with translations.

The data is calculated each month, you can read the [source code here](#).

Here I'm also highlighting contributions from sponsors.

I also reserve the right to update the algorithm, sections, thresholds, etc (just in case 🤖).
