

React Timeline component

Timeline

The timeline displays a list of events in chronological order.

Note: This component is not documented in the Material Design guidelines, but MUI supports it.

```
{{"component": "modules/components/ComponentLinkHeader.js"}}
```

Basic timeline

A basic timeline showing list of events.

```
{{"demo": "BasicTimeline.js"}}
```

Left-positioned timeline

The main content of the timeline can be positioned on the left side relative to the time axis.

```
{{"demo": "LeftPositionedTimeline.js"}}
```

Alternating timeline

The timeline can display the events on alternating sides.

```
{{"demo": "AlternateTimeline.js"}}
```

Color

The `TimelineDot` can appear in different colors from theme palette.

```
{{"demo": "ColorsTimeline.js"}}
```

Outlined

```
{{"demo": "OutlinedTimeline.js"}}
```

Opposite content

The timeline can display content on opposite sides.

```
{{“demo”: “OppositeContentTimeline.js”}}
```

Customization

Here is an example of customizing the component. You can learn more about this in the overrides documentation page.

```
{{“demo”: “CustomizedTimeline.js”}}
```
