

Bower plugin

This plugin adds completion for [Bower](#) and a few useful aliases for common Bower commands.

To use it, add `bower` to the plugins array in your zshrc file:

```
plugins=(... bower)
```

Aliases

| Alias | Command | Description |
|-------|----------------------------|--|
| bi | <code>bower install</code> | Installs the project dependencies listed in bower.json |
| bl | <code>bower list</code> | List local packages and possible updates |
| bs | <code>bower search</code> | Finds all packages or a specific package. |
