

## zh-CN

当内容较长时，使用固定侧边栏可以提供更好的体验。

## en-US

When dealing with long content, a fixed sider can provide a better user experience.

```
import { Layout, Menu } from 'antd';
import {
  AppstoreOutlined,
  BarChartOutlined,
  CloudOutlined,
  ShopOutlined,
  TeamOutlined,
  UserOutlined,
  UploadOutlined,
  VideoCameraOutlined,
} from '@ant-design/icons';

const { Header, Content, Footer, Sider } = Layout;

export default () => (
  <Layout hasSider>
    <Sider
      style={{
        overflow: 'auto',
        height: '100vh',
        position: 'fixed',
        left: 0,
        top: 0,
        bottom: 0,
      }}
    >
      <div className="logo" />
      <Menu theme="dark" mode="inline" defaultSelectedKeys={['4']}>
        <Menu.Item key="1" icon={<UserOutlined />>
          nav 1
        </Menu.Item>
        <Menu.Item key="2" icon={<VideoCameraOutlined />>
          nav 2
        </Menu.Item>
        <Menu.Item key="3" icon={<UploadOutlined />>
          nav 3
        </Menu.Item>
        <Menu.Item key="4" icon={<BarChartOutlined />>
          nav 4
        </Menu.Item>
        <Menu.Item key="5" icon={<CloudOutlined />>
          nav 5
        </Menu.Item>
      </Menu>
    </Sider>
  </Layout>
);
```
