

zsh-interactive-cd

This plugin adds a fish-like interactive tab completion for the `cd` command.

To use it, add `zsh-interactive-cd` to the plugins array of your `zshrc` file:

```
plugins=(... zsh-interactive-cd)
```

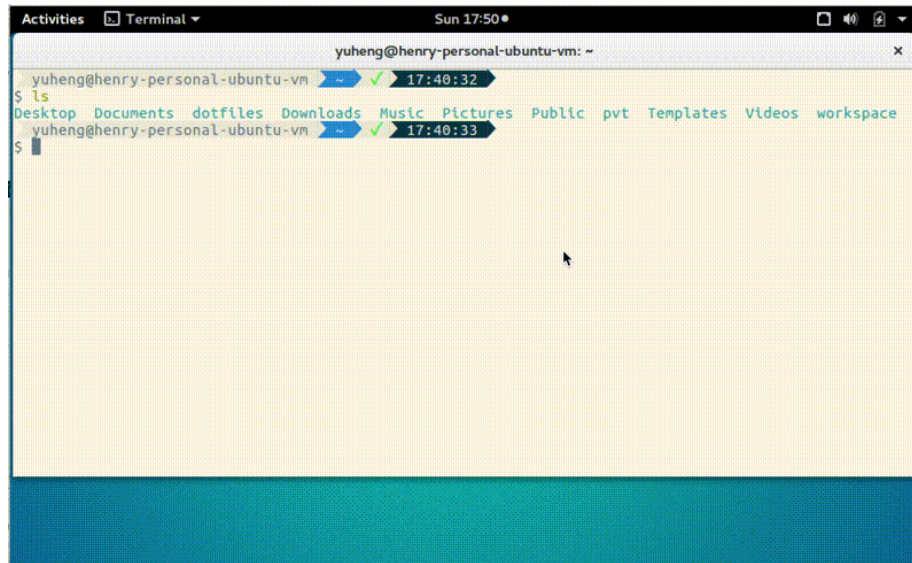

Figure 1: demo

Usage

Press `tab` for completion as usual, it'll launch `fzf` automatically. Check `fzf`'s [readme](#) for more search syntax usage.

Requirements

This plugin requires `fzf`. Install it by following its [installation instructions](#).
