

Note: this error code is no longer emitted by the compiler.

A clobber was surrounded by braces in the `llvm_asm` macro.

Erroneous code example:

```
llvm_asm! ("mov $$0x200, %eax"  
          :  
          :  
          : "{eax}"  
          );
```
