

gatsby-source-faker

This is a plugin that allows you to use faker.js to generate fake data for Gatsby sites. This could come in handy for creating example sites, documentation, or just to experiment with Gatsby.

How to use it

Install gatsby-source-faker

```
npm install gatsby-source-faker
```

Add gatsby-source-faker to the gatsby-config.js as follows

```
plugins: [  
  {  
    resolve: `gatsby-source-faker`,  
    // derive schema from faker's options  
    options: {  
      schema: {  
        name: ["firstName", "lastName"],  
      },  
      count: 3, // how many fake objects you need  
      type: "NameData", // Name of the graphql query node  
    },  
  },  
]
```

Example: Using Faker
