

FPGA Bridge

API to implement a new FPGA bridge

- struct fpga_bridge - The FPGA Bridge structure
- struct fpga_bridge_ops - Low level Bridge driver ops
- fpga_bridge_register() - Create and register a bridge
- fpga_bridge_unregister() - Unregister a bridge

System Message: ERROR/3 (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\driver-api\fpga\linux-master) [Documentation] [driver-api] [fpga] fpga-bridge.rst, line 12)

Unknown directive type "kernel-doc".

```
