

# Blog Post with Code Example

2017-10-16T15:12:03.284Z

This post contains a code snippet with syntax highlighting. The highlight theme is the same one used in the official React documentation.

```
function NumberList(props) {  
  const numbers = props.numbers  
  const listItems = numbers.map(number => (  
    <li key={number.toString()}>{number}</li>  
  ))  
  return <ul>{listItems}</ul>  
}  
  
const numbers = [1, 2, 3, 4, 5]  
ReactDOM.render(  
  <NumberList numbers={numbers} />,  
  document.getElementById("root")  
)
```
