

Example app with Storybook setup for SCSS in Styled-jsx

This example shows Styled-jsx (with SCSS) working for components written in TypeScript rendered both inside and outside of Storybook.

Deploy your own

Deploy the example using [Vercel](#) or preview live with [StackBlitz](#)

How to use

Execute [create-next-app](#) with [npm](#) or [Yarn](#) to bootstrap the example:

```
npx create-next-app --example with-storybook-styled-jsx-scss with-storybook-styled-jsx-scss-app
# or
yarn create next-app --example with-storybook-styled-jsx-scss with-storybook-styled-jsx-scss-app
# or
pnpm create next-app -- --example with-storybook-styled-jsx-scss with-storybook-styled-jsx-scss-app
```

Run Storybook

```
npm run storybook
# or
yarn storybook
```

Build Static Storybook

```
npm run build-storybook
# or
yarn build-storybook
```

You can use [Vercel](#) to deploy Storybook. Specify `storybook-static` as the output directory.

Notes

This example combines the following examples, with some required extra config added:

- [with-storybook](#)
- [with-styled-jsx-scss](#)

- [with-typescript](#)
