

ABI obsolete symbols

Documents interfaces that are still remaining in the kernel, but are marked to be removed at some later point in time.

The description of the interface will document the reason why it is obsolete and when it can be expected to be removed.

System Message: ERROR/3 (D:\onboarding-resources\sample-onboarding-resources\linux-master\Documentation\admin-guide\[linux-master] [Documentation] [admin-guide] abi-obsolete.rst, line 10)

Unknown directive type "kernel-abi".

```
.. kernel-abi:: $srctree/Documentation/ABI/obsolete
