

Instructions

Please read and follow the instructions before creating and submitting a pull request:

- Create an issue explaining the feature. It could save you some effort in case we don't consider it should be included in axios.
- If you're fixing a bug, try to commit the failing test/s and the code fixing it in different commits.
- Ensure you're following our [contributing guide](#).

⚠️👉 **Delete the instructions before submitting the pull request** 👉⚠️

Describe your pull request here.
