arli	<b>arc lint</b>
arls	<b>arc list</b>
arpa	<b>arc patch</b>

## Functions

The following functions make copy pasting revision ids from the URL bar of your browser easier, as they allow for copy pasting the whole URL. For example: **ardu** accepts both **https://arcanist-url.com/<REVISION>** as well as **<REVISION>**.

Function	Command
ardu [URL or revision_id]	<b>arc diff --update</b> [revision_id]
arpa [URL or revision_id]	<b>arc patch</b> [revision_id]
