

## Isodate plugin

**Maintainer:** @Frani

This plugin adds completion for the ISO 8601, as well as some aliases for common Date commands.

To use it, add `isodate` to the plugins array in your `zshrc` file:

```
plugins=(... isodate)
```

### Aliases

Alias	Command	Description
isodate	<code>date +%Y-%m-%dT%H:%M:%S%z</code>	Display the current date with UTC offset and ISO 8601-2 extended format
isodate_utc	<code>date -u +%Y-%m-%dT%H:%M:%SZ</code>	Display the current date in UTC and ISO 8601-2 extended format
isodate_basic	<code>date -u +%Y%m%dT%H%M%SZ</code>	Display the current date in UTC and ISO 8601 basic format
unixstamp	<code>date +%s</code>	Display the current date as a Unix timestamp (seconds since the Unix epoch)
date_locale	<code>date +%c</code>	Display the current date using the default locale's format
