Edit a value mapping

You can change a value mapping at any time.

Before you begin

- [Add a panel to a dashboard]({{< relref “../working-with-panels/add-panel.md” >}}).
- Ensure you have an existing value mapping to edit.

To edit a value mapping:

1. Edit the panel that contains the value mapping you want to edit.
2. In the panel display options, in the **Value mappings** section, click **Edit value mappings**.
3. Make the changes and click **Update**.
