

## zh-CN

标准页头，适合使用在需要简单描述的场景。

## en-US

Standard header, suitable for use in scenarios that require a brief description.

```
import { PageHeader } from 'antd';

export default () => (
  <PageHeader
    className="site-page-header"
    onBack={() => null}
    title="Title"
    subTitle="This is a subtitle"
  />
);
```

```
.site-page-header {
  border: 1px solid rgb(235, 237, 240);
}
```
