

## **gatsby-plugin-flow**

Provides drop-in support for Flow by adding `@babel/preset-flow`.

### **Install**

```
npm install gatsby-plugin-flow
```

### **How to use**

1. Include the plugin in your `gatsby-config.js` file.
2. You're good to go.

```
gatsby-config.js
```

```
plugins: [`gatsby-plugin-flow`]
```
